Products Detail

Welded Wire Mesh Panel

Welded Wire Mesh Panel is made of superior quality welded wire mesh, with flat even surface, firm structure, be used extensively in building, food, agriculture and so on. Welded Wire Mesh Panel mainly serves as fencing mesh.

Stainless steel welded wire panels

Stainless Steel Welded Mesh Panels enjoy superior characteristics such as corrosion resistance, acid resistance, alkali resistance, aging resistance, oxidation resistance, sunshine resistance and weather resistance.

Galvanized welded wire panels

Galvanized welded mesh panels have excellent characteristics such as corrosion resistance, acid resistance, alkali resistance, aging resistance, oxidation resistance, sunshine resistance and weather resistance.

PVC coated welded wire panels

PVC coated welded mesh panel is made of superior quality of welded galvanized iron wire mesh, to be coated with PVC powder by advanced automatic equipments. This kind of panel is suitable for houses and properties, companies, gardens recreation areas and parks.

Black Wire Welded Mesh Panels

Black wire welded mesh panel or black welded mesh panel is made of superior quality welded mesh, with flat even surface, strong structure, good integrity and a competitively long service life.

Framed Welded Mesh Panel

Framed welded mesh panels enjoy superior characteristics such as corrosion resistance, acid resistance, alkali resistance, aging resistance, oxidation resistance, sunshine resistance and weather resistance.

Property: Welded wire mesh panels enjoy such properties as corrosion resistance, aging resistance, sunshine resistance and weather resistance.

Characteristics:

Welded Wire Mesh Panel enjoy superior characteristics such as corrosion resistance, acid resistance, alkali

resistance, aging resistance, oxidation resistance, sunshine resistance and weather resistance. Moreover, this kind of Welded Wire Mesh Panel has flat even surface and strong structure, therefore it can offer a long service life and the service life can reach to several decades.

Application:

Welded Wire Mesh Panel with flat surface and firm structure are widely used in exhibitions, solar power panel, samples shelves, highways, railways, air ports, ports, docks, municipal construction, agriculture and breeding industry.

Meantime this kind of Welded Wire Mesh Panel is also an ideal material for high and new-style construction. 3D Panels also called double layer welded wire panels can be used in construction with the features of easy installing and high tensile.

| welded wire mesh panels | | | |
|-------------------------|-----------------------------|-----------|------------|
| wire Gauge (mm) | aperture (m) × aperture (m) | width (m) | length (m) |
| 2.0 | 1" × 2" | 2.5 | 5 |
| 2.5 | 2" × 2" | 2.5 | 5 |
| 3.0 | 2" × 3" | 2.5 | 5 |
| 3.5 | 3" × 3" | 2.5 | 5 |
| 4.0 | 3" × 4" | 2.5 | 5 |
| 4.5 | 4" × 4" | 2.5 | 5 |
| 5.0 | 4" × 6" | 2.5 | 5 |
