Products Detail

Window screening weaving machine

Plastic window screening weaving machine is the equipment of process glass fiber, Plastic vinyl material, woven plastic window screening, Fiberglass window screening, Invisible window screening. this machine can produce 1m, 1.2 m, 1.5m, 1.8m, 2.0m, 2.3m,2.8 m,3.0m,3.3m,3.5m kinds of width specifications; mesh density is adjustable between 8 and 45 ; we produced the JL-CSWG plastic window screening weaving machines with the characters of high yield,high speed,low noise,low power,mesh accurate and good stability.A machine can produce two or more network products of different widths at the same time.

Electric Motor: 1.5KW FOH-56-6, 2.0KW FOH-58-6, 960rotation/minutes

Max. shaft rotation: 130-200 rotation/minute

Weft yarn choice: mechanical control, six color

Weaving shaft coil distance(mm): 1380, 1860, 2060, 2366, 2566, 2866

Weaving shaft coil diameter(mm): 550, 600

Cloth Full Rolling Diameter(mm): 400

Warp Yarn Feeding: Auto feeding

Weft Yarn Feeding: Auto feeding

Outside Dimension of the machine(mm):

width:3875, 4180, 4380, 4680, 4880, 5180

Depth: 1857; Height:1640

Weight of the Machine: 1600kg (motor not included)

The Use Of Plastic Screens:

High-grade office buildings, residential and various buildings, farms, orchards, etc., are insects, mosquitoes, the best protection products

Characteristics:

- ①Long life: excellent weather resistance, anti-aging, anti-cold, anti-hot, anti-dry moisture resistance, fire retardant, anti-moisture, anti-static,good light transmission, channeling wire, no deformation, UV resistance, tensile strength, the advantages of long life. Beautiful, well-structured.
- ②Wide range of applications: direct installation in the window frames, wood, steel, aluminum, plastic doors and windows can be assembly; corrosion-resistant, high strength, anti-aging, fire, good performance, do not need paint coloring.

- ③ Non-toxic and tasteless
- ④ The gauze select glass fiber yarn, fire retardant
- ⑤ anti-static, non-stick ash, good ventilation
- ⑥ good light transmission, with a true sense of invisibility
- ⑦ Automatic filter UV radiation and protect family health
- ⑧ Mesh uniform, high strength, resistance to traction
